Number 14

LOCAL BOY WILL HAVE

HEART OPERATION

Varian Layne, son of Mr. and Mrs. Cyril Layne of Raymond, left Wednesday afternoon for Madison, Wis., where he expects to undergo an operation for a heart condition that has been with him since birth. The operation is one of the most delicate operations to be performed and this community wishes the best of success to him. His mother, Mrs. Gladys Layne will leave Friday to be with him there and to return to Canada with him.

WILLIAM FAIRBANKS ON TOWN COUNCIL

Wm. Fairbanks became a member of the Town Council Monday, July 28, by acclamation, when nominations were called for to fill the unexpired term of Wilford VanOrman. The vacancy was left when Wilford (Wicky) moved to Cardston where he is in business with his brother.

William Fairbanks is well known in this district, operating the Broad way store with his brother Paul. The Town was saved the necessity of a by-election when only the one nomination was received.

A NEW BUSINESS FOR RAYMOND

A new business is being set up in Raymond to commence operations in the near future.

A. J. Garner has purchased a cylinder block machine and will manufacture both sand and cylinder blocks for the building trade. The machinery is now installed and mass production of the popular building blocks will be started as soon as cement becomes more plentiful.

Shortage of cement will slow down production at first but a break in the cement shortage is expected shortly.

Some cement is available from across the line but the price makes its use prohibitive in block making. The present price of the finished product is to be kept at or near the present level.

Sample block will be on display in the Mercantile Lumber Yard.

TWO CAIRNS TO BE DEDICATED AUGUST 2

Two cairns, which have been erected near the International Boundary between Waterton Lakes National Park in Alberta and Glacier National Park in Montana, will be unveiled at a dedication ceremony at Waterton Park townsite on Saturday August 2nd, according to a statement issued by the Hon. J. A. Glen, Minister of Mines and Resources, Ottawa. The cairns, one on the Canadian side and the other on the United States side of the Boundary, are on the Chief Mountain Highway linking the two parks.

The erection of these cairns is the result of thoughtful suggestions and efficient efforts by Rotary International. It was Rotary International that originally sponsored the action which resulted in legislation being passed in 1932 by the Parliament of Canada and the United States Congress establishing the Waterton Glacier International Peace Park. The erection of these cairns is a further step in commemorating the understanding and goodwill which have so long prevailed between the peoples and the governments of the two great democracies. For more than 130 years unbroken peace has existed along the unfortified boundary line of over 3000 miles between Canada and the United States, furnishing to the world an unequalled example of international amity.

Besides uniting two parks, the establishment of the Waterton Glacier International Peace Park links the national parks systems of Canada and the United States, areas which are playing an increasingly important part in the lives of the peoples of this continent. The United States national park system is, of course, the older having had its inception around a camp fire in the wilds of Wyoming back in 1870. The idea was first translated into action two years later with the establishment of Yellowstone National Park. Canada followed the example of her neighbor to the south in 1895 when the first national park was established around the hot mineral springs at Banff Alberta. Since then the international park system of Canada has grown to 26 separate units comprising a

Welling

NEWS NOTES

by Atha Peterson

The R. L. Chipman family have returned from Salt Lake and report a wonderful trip.

Mr. and Mrs. Dean Wilde and family and Jessie Chipman have returned from a holiday trip through Glacier and Kallspel Montana.

Mr. and Mrs. Ray Bullock and Charles Matkin of Magrath returned Tuesday from having driven the Scouts to Salt Lake. All report a thrilling experience at the Centennial Scout Camp and a wonderful trip. There were 56 in the party.

Born to Mr. and Mrs. Fletcher Hutchinson of Munsey, Ind., are Nina Bullock, a daughter, Pamela Raye, on July 14th.

Born to Mr. and Mrs. Lynn Bennett a daughter Margaret Elizabeth, at the Raymond Municipal hospital.

Welling-Ward attended the July 24th celebration in Raymond. Those in charge of the float are to be congratulated on their fine work, the float winning first prize.

The field day on the Church farm was well attended considering the number of people away holidaying at present. About 26 men and boys took part with trucks, tractors and other machinery. The ladies served a noon meal at the church. (Heard at dinner, "Why don't we do this more often?")

Mr. and Mrs. C. D. Peterson and Mr. and Mrs. V. D. Peterson are holidaying in Salt Lake. A Peterson reunion was held last week at Huntsville, Utah. Mrs. Emma Bingham of Eastern Canada accompanied the Petersons to Salt Lake, having been a guest of relatives here and in Magrath and Cardston prior to their departure.

Mr. B. C. Downey, Bank Inspector and his assistant Mr. H. B. Francis have been at the Bank of Montreal for the past ten days doing the annual inspection of the Bank of Montreal.

total area of 29,660 square miles. The chain of international playgrounds and places of historic interest extends from the Atlantic coast in the east to Selkirk mountains in the west and is represented in every province.

Not only are the national parks important from the point of view of health and recreation for Canadians but the are also major tourist magnets. Last year they were hosts to nearly a million visitors, and there are indications that this figure will be exceeded during the present year. Those taking part in the dedication ceremony on August 2nd, will include Senator W. A. Buchanan, representing the Government of Canada, Ernest T. Eaton, Governor of Montana; Hon. J. C. Bowen, Lieut. Governor of Alberta; Venerable Archdeacon S. H. Middleton, Chairman of the Waterton-Glacier International Peace Park Committee; Tom J. Davis, Past president of Rotary International; L. C. Merriam, Regional Director of the United States National Park Service; J. W. Emmert, Superintendent of Glacier National Park; and H. A. deVeber; J. A. Hutchinson; J. A. Wood, the Superintendents of Waterton Lakes; Banff and Jasper National Parks.

WAGES OF WISDOM

Hold it, everybody. Stop the presses. Call of your man, sir, and take care of that rip in the dog's trousers. Its news. "Workers refuse wage boost"—there's a headline to grip a Greeley.

It has happened, really happened, in the state of Washington. Carpenters in unions of the American Federation of Labor are the heroes of the piece. But they are not indulging in any heroics. Its just common sense they say. When cost of building materials are so high that building activities are falling off—well that's no time to add the cost of a wage rise to the camel's back. So the carpenters will not take advantage of the senator clause in their contract.

Local Happenings

Reported by Elsie Mitchell

The annual picnic of the United Church was held on Sunday at the St. Marys River west of Magrath. Over fifty were in attendance. Swimming and bathing were enjoyed as well as horse shows and softball games.

A delicious lunch of hot dogs, doughnuts and coffee were served after which community singing was held. Two lovely duets from Rev. and Mr. Larke were also enjoyed.

We are sorry to report the departure of Rev. Larke. He having accepted a call to a church in Ontario. He leaves Wednesday for his new appointment.

The best wishes of the community go with Reverend Larke and Mrs. Larke and family in their new home.

Mrs. Alice Biv. Matron of the Mental hospital and Mrs. Yvonne Henderson left Monday for a vacation at Banff and Jasper.

Visitors at Waterton over the week end included Mr. and Mrs. Jack Kenny, Mr. and Mrs. Wilson, Hollison, Mr. and Mrs. Maurice Holt, Mr. and Mrs. Prince Gallarath, Mr. and Mrs. Glen Meeks and Mr. and Mrs. Lloyd Bidd and their families.

Mrs. Mary Lund was a visitor in Milk River last week.

Mr. and Mrs. Ed Price of Picture Butte are Raymond visitors this week.

Mrs. Ella Ralph and children are holidaying in Waterton.

Mrs. Hazel Darch and children of Warner are visiting her sister Mrs. Elmo Hatfield.

Miss Betty Bartsch left Tuesday for a visit with her sister in Cranford.

Mrs. Rena Heggie and Mrs. Doris Court entertained last week at the home of Mrs. George Heggie in the form of a shower for Mrs. Bernice Johnson. Many ladies called during the evening and Mrs. Johnson received some lovely gifts. Mrs. Johnson and small son left Wednesday by plane for Draperston, Utah to join her husband and to make their future home.

Mr. and Mrs. Chas. Stewart of Palm Springs, Idaho, are visiting Mr. and Mrs. Reid Hatfield.

Mrs. C. Linhart has as her guests, her brother Wm. Stuebick of Macleod and niece Betty Stuebick of Wrentham and Elaine Stuebick of Parkland.

Wm. Wiggill and daughter Arlene Brown returned Friday from a visit to Calgary.

Mr. and Mrs. Lincoln Wood and children and Mr. and Mrs. David Wood of Edmonton returned Sunday from a motor trip to Salt Lake.

Mr. and Mrs. Cranburg of Warner were guests this last week of Mr. and Mrs. Lou's Fisher.

Miss Lavin F. and Mr. A. G. Palmer left Thursday for Calgary where they will take a computer course.

Mrs. Ted Abel has as her guests, her mother Mrs. George Melton and her sister Bernice of Calgary.

Miss Velma Vance is visiting in Calgary. Her sister Velma is spending a vacation in Vancouver.

Miss Laura Atkinson spent her vacation at Waterton.

providing for a 12 cent per bushel increase at this time.

Those hitting the high price mark on the board. Those putting a beam under the business floor. The price is too far. That's the plan. The surface for level pump. The price of the butcher, the baker, and the candle maker will dovetail their price with the carpenter. The price of us will be able to raise the price of the boat offers us.

—The Christian Science Monitor.

E. N. Christensen and son Doug visited in Butte, Mont., with relatives, over the week end.

Mrs. Larry McLaughlin and son are visiting relatives in Nelson B.C. Mr. McLaughlin expects to join them shortly.

Mr. and Mrs. E. C. Jones of St. Marys have been at their home in W. B. Jones and family.

Visitors at Waterton this week were Mr. and Mrs. Art Jensen and family.

Mr. Laveda Haglund and Mr. E. C. Jones and family are in town Friday.

Mrs. Martha McKay of Salt Lake arrived in Raymond Sunday evening. She is visiting relatives. She accompanied Mr. and Mrs. C. R. Wigg and family to Waterton where they will spend a vacation.

Bishop and Mrs. Wm. Jensen and family are visiting in Salt Lake.

Visitors at the A. G. Dahle home are Mr. and Mrs. Delbert Boice and three sons of Kirtland, New Mexico. Mrs. Boice is the former Blanche Dahle.

Mrs. R. C. Hancock and son and daughter of Mountain View returned to their home after visiting relatives here.

Mr. and Mrs. Frank Shaw and daughter Lavin are visiting in Cardston and Waterton.

Guests at the M. C. Miller home are Mr. Miller's brother Randy and wife and children of Livingston, Mont.

Miss Elaine Stevenson has secured employment in Waterton.

Mr. and Mrs. George Paris with their son Bob and daughter Mrs. LeRoy Sdon of Everett, Wash., are visiting their parents here.

Miss Sheila Roberts celebrated her twelfth birthday Monday with a party for her friends. Mrs. Margaret Lindsay and daughter Carol and Marlene Paul were guests from Lethbridge.

Mr. and Mrs. Lowell Court and family have returned home after spending their holiday visiting relatives in Cardston.

Mrs. Hope Jensen entertained members of the Y.M. Club at the home of Mrs. Henry Jensen Monday night. Mr. Henry Duncombe gave an interesting book review of "The Keeper of the Bees". A delicious lunch was served. Mrs. Jeannine Jensen and Mrs. LeRoy Duncombe were special guests.

Mr. and Mrs. Gill Evans and family and Mr. and Mrs. Russ West and small daughter spent the week end in Waterton.

R.T. Graham returned this week from a tour of the north country. He reports a very enjoyable trip and is very pleased with the country. He is the guest of C. E. Bassett of Edmonton and he is from Edmonton. The trip was made by plane, the first of the season.

July of this year is believed to be the best time to plant. Crops are beginning to show the effects of moisture.

Produce prices this past week were very low. Crop damage has been done by the late and farmers are suffering in bringing in the crops. The price of the crops is very low.

SHINY FISH

Additional information on the fish being marked in the North Sea off the mouth of the Yorkshire Esk during June, July and August, to get information about their movements. It is anticipated that some of the marked fish will be recaptured off Britain's East Coast in self-lubricating.

SELLO BROS. CIRCUS IN TOWN MONDAY

A big thrill is in store for the children of all ages of Raymond and district next Monday when the circus will come to town. Arrangements have been made with Sello Bros. to bring their circus to Raymond on Monday August 1st and they will locate in Memorial park behind the Mercantile.

There will be both afternoon and evening performances of the show. (See the advertisement elsewhere in this issue.)

It has been a good many years since Raymond enjoyed a circus and from advance advertising this one holds forth the promise of being a good one.

They will bring with them such attractions as Ruth Roy and her group of savage, jungle bred, fighting African lions in steel arena. Nera, the horse riding lion trapeze artist, clowns, elephants liberty horses monkeys, etc.

Dr. Bible gave up his practice as a dental surgeon after training horses and spending years appearing in his leisure hours for children's shows as a hobby. To enable him to widen his opportunities of pleasing more and more children each year he entered the circus. His children now range in age from one year to 100 years. With his beautiful photos performing with the ease and grace of ballet dancers, hundreds of thousands of people every year leave the show wondering how such love and understanding can exist between horses and master. Watch "Gyp" when he rises to his high legs and

Miss Flora Palmer of Magrath has been visiting her brother Ernest and family before leaving for Utah.

Miss Vera Melldrum of Calgary spent the week end here at home.

Mrs. Edna Mitchell and small son of Vancouver is visiting her father C. E. Hancock.

THE LARGEST FLOATING DOCK IN THE WORLD

A dock built by the British in Bombay intended for the use of the Royal Navy in Malta, was recently towed there by Admiralty tugs. It is so large (it can accommodate a 50,000 ton ship) that it had to be cut in two

for passage through the Suez Canal. This picture shows: The first half of the dock being warped through the El Firdan Swing Bridge while a R.A.F. Spitfire flies overhead. The second half of the dock can be seen approaching up the canal in the distance.

Reclamation Of Farm Lands

THE QUESTION OF THE INCREASED development of farm lands in Canada came up in the Dominion Parliament recently when it was announced that a plan was under consideration for such development in the next five years. This is a subject which has been widely discussed and which is of concern from a number of points of view. Although Canada has a great area, with much land which is suitable for agriculture, there is a relatively small amount of land actually under cultivation. With our present population there is no lack of farm land, but should an extensive immigration policy be undertaken, much land that is now not used, would be needed for farming.

Need For More Food Supplies

Another aspect of the question is that if the world remains at peace and present plans for the general raising of living standards are carried out, there will be need for increased supplies of food in the years to come. Canadian farmers are inclined to doubt the possibility of the growth of demand on the world market for their products, but a larger population here and a rise in living standards everywhere would provide wide markets for the products of our farms. Canada made very rapid advances in industry during the war and greatly increased her world trade. For some years there have been no surpluses of farm products here and if the world is not shaken by political or economic disaster, Canadians should be able to look forward to continued prosperity.

Work Of P.F.R.A. Is Well Known

The reclamation of waste land would provide farms for many of our citizens and add to the volume of our food production. Much has already been done in the Prairie Provinces through the work carried out under the Prairie Farm Rehabilitation Act, the value of which is well known to Western farmers. The present proposals are concerned mainly with the reclamation of dykelands in Nova Scotia and New Brunswick and flood control, drainage and irrigation in British Columbia. It would, however, include the clearing and breaking of new farm land all across Canada. Opinions on the question will be widely diversified, but at a time when Canada is growing in many other ways it would seem reasonable that the expansion of facilities for farming should be considered.

CHILD SURVIVES DREAD DISEASE, ONLY ONE LIVES IN A MILLION

GADSDEN, Ala. — Claudia Paul-ette Starkey, three-months-old daughter of Mr. and Mrs. Claude Starkey of Gadsden, is one child in a million. Eleven-pound Claudia is one of the few persons to survive Erythroblastosis, and the only one of four Starkey children to live through the dread affliction.

The three Starkey children, preceding Claudia died of the almost incurable blood malady on the 19th day after birth. In 1930 the young couple lost Julia Ann. The following year a son, Claude Jr., died. In 1938, Michael Anthony was born, only to die on his 49th day. Physicians were stumped.

But between the time of the death of the first Starkey child and the birth of Claudia, last Oct. 31, scientists had discovered the Rh factor. The blood of parents of children born with erythroblastosis, they found, had opposite Rh factors, one negative and the other positive.

If the mother's blood differed from

the child's, their blood "fought" throughout pregnancy. But, they figured, if the blood of a child threatened with the disease could be classified soon enough and a transfusion of matching blood made, its chances for life could be greatly increased.

Findings showed Mrs. Starkey to have a negative Rh factor, her husband a positive one.

Plans for the battle for Claudia's life were made months ahead.

Minutes after her arrival at a Birmingham hospital, she was found to have a positive Rh factor, matching her father's. Eight hours after birth, the blood was pumped from the child and fresh blood of the proper type injected in her veins.

The first weeks of Claudia's life were suspense-laden, but when she passed the fateful 10th day science relaxed and declared another victory.

Today Claudia is a lively, beautiful, healthy child, destined her mother says to "some day be called, 'Mrs. President'."

TO PREVENT "SHACK TOWNS"

VICTORIA. — To prevent "shack towns" springing up on the fringes of some interior cities, British Columbia has ratified regulations to set up a control area in unorganized territory surrounding Vernon and Kelowna, B.C., in the Okanagan fruit-growing area.

The regulations will not take effect until after public hearings have been held in the two cities. Inspectors in these centres will enforce the regulations, with the right of appeal to boards consisting of a government agent, a city council member and three land-owners.

FOUND NO CHINESE

TORONTO. — Morality squad officers frankly confessed they never were so surprised as when in a raid in Toronto's Chinatown they arrested 19 men—and there was not a Chinese to be found among them. Three were charged with keeping a common gaming house, 16 with being found in.

Dry content of a kernel of corn is 80 per cent. carbohydrate.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

Stop the Itch of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, pimples, scales, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting, soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Itch stops or your money back. Your druggist stocks D. D. D. PRESCRIPTION.

BE A HAIRDRESSER

Ladies earn more money—Learn Hairdressing: a profession offering ambitious women unlimited opportunities. We positively guarantee complete, thorough training under direct supervision of nationally known instructors. Easy pay as you learn plan. Write or call for complete details and illustrated booklet.

Russia Needs 10 Years To Arm

OTTAWA. — Members of Canada's Senate and Commons were told behind closed doors that it might take Russia 10 to 20 years to bring her war potential on an equal footing with that of the United States.

Only scant official information was given out on the secret meeting, called to allow L. B. (Mike) Pearson, undersecretary of state for external affairs and former ambassador to Washington, to review world conditions.

But one member said he understood Mr. Pearson to say that war was unlikely for another 10 or 20 years. Another said Mr. Pearson had not been so definite, but had stated that it would take Russia between 10 or 20 years to bring her war potential to a par with that of the United States.

It was indicated the possibility of invasion through Canada's northland in the event of another war and the possibility of projectiles being used against North America were mentioned briefly but kept strictly within the class of "possibilities".

GEMS OF THOUGHT

TRUE WEALTH

To have what we want is riches, but to be able to do without is power.—George MacDonald.

My riches consist not in the extent of my possessions, but in the fewness of my wants.—Joseph Brotherton.

Keep down as much as you can the standard of your wants, for in this lies a great secret of manliness, true wealth, and happiness.—William E. Gladstone.

Love a little more. Be faithful a little more. Serve a little more. And then watch God reveal himself to you in a larger and lovelier way.—Robert Norwood.

Rest assured that He in whom dwelleth all life, health, and holiness, will supply all your needs according to His riches in glory.—Mary Baker Eddy.

Charge them that are rich in this world, that they be not high-minded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy.—1 Timothy 6:17.

Skyraper strongholds, 10 to 15 stories high, featured the skylines of medieval Italian cities.

YOUNG PIONEER—Youngest passenger ever to sail for the Arctic, six-weeks-old Laren Scott is shown in the arms of her mother, Mrs. Allan Scott, who is going on to Nanaimo to Southampton Island, where her husband is to head a Hudson's Bay Co. post.

FUNNY And OTHERWISE

Teacher (questioning the infants' class after lesson on the Creation, in which she had explained that man was considered more important than animals): "Now tell me, what did God make man more important than?"

Little boy (aged 5): "Ladies, miss."

The film actor, married and divorced five times in three years, came to the registrar with his sixth bride. It was the same registrar who had married the actor on previous occasions.

After the ceremony, the actor reached into his wallet, but the registrar waved the money aside.

"Not this time," he said. "This one is on the house!"

"I hear that you and Maggie have been reconciled and are to be married after all," said McPherson.

"Quite right," replied McIntosh. "You see, Maggie has put on weight and we couldn't get the engagement ring off her finger."

Little Joan was paying her first visit to her unmarried aunt, who had strong views on how small girls should behave. As a result, Joan was far from happy.

"Well, my dear," said auntie, "you look so sad, you must be homesick."

"No, I'm not," said Joan frankly. "I'm here sick."

"Your wife is a very systematic woman, isn't she?" asked Robinson.

"Yes, very," replied Smith. "She works on the theory that you can find whatever you want when you don't want it by looking where it wouldn't be if you did want it."

Magistrate—You are sentenced to pay a fine of 10 guineas, plus five guineas costs. Have you anything to say?

Offender—Rather. And if you'll promise not to increase the fine, I'll say it.

Wife—George, dear, would you mind helping me with a little bit of arithmetic?

Husband—Not at all.

Wife—Well, if we pay the cook all the wages she wants, do you think we'll have enough money left to buy anything for her to cook?

"I've just been congratulating Colonel Blazie," said a guest at a luncheon. "He's been appointed governor of a prison."

"Really?" asked his pretty neighbor. "Now, for a job like that does one need influence, or does one just start as a convict and rise from the ranks?"

After the christening the vicar complimented the parents on the fact that their baby did not cry during the ceremony.

"Well, you see," explained the proud mother, "we've been getting him used to it with a watering can."

Having a rather long and startling message to send home and just enough funds to pay for a 10-word telegram, the man wrote as follows:

"Bruises hurt, erased a Ford erected analysis hurt infectious dead."

Here's what he meant: "Bruce is hurt, he raced a Ford, he wrecked it, and Alice is hurt, in fact she's dead."

STARTED SOMETHING

Two barbers named Wood and Stone were standing on a street corner. A pretty girl passed by. Wood turned to Stone, Stone turned to Wood. They both turned to rubber and the girl turned into a beauty shop.

The hurdy-gurdy was invented in France in the 13th century.

Canadian Exports At Peacetime Peak

OTTAWA.—Canadian exports are running 18 per cent. higher this year than last and well over three times the 1938 total. Dollar volume of goods shipped up to the end of May was \$1,155.8 millions compared with \$896.1 millions for the same period in 1946 and \$321.1 millions in 1938.

May exports were valued at \$267.8 millions, the greatest dollar value since the last month of the war, August, 1945. It is \$76.9 millions more than April and over the first five months, represents an average increase of \$70.8 millions over last year.

The all-important buying by the United States showed a drop at \$79.8 millions from the preceding monthly average. However, this is still \$7.5 millions higher than in May, 1946. Thus, for the first time since March, 1945, exports to the United Kingdom exceeded those to the United States.

The greatest single increase in May was registered by the \$90.5 millions we shipped to Great Britain. This is more than double the \$43.1 exported in April and \$35.6 million higher than in May, 1946. The figure for the first five months, 1947 is \$276.4 millions (\$235.5 millions a year ago).

This kind of an advance occurred almost clear across the board within the Commonwealth.

South Africa, for example has bought from us 50 per cent. more than last year; Australia and New Zealand purchases are almost double what they were in 1946. Newfoundland is buying one-third more while the British West Indies buying jumped from \$19.1 millions up to May last year to \$33 millions so far this year. In addition, exports to Europe are at a higher level than at any other month. France is buying at about the same rate; Netherlands purchases up about 30 per cent. Belgium buying dropped to about half the 1946 rate, probably because her Canadian loan is running out.

Plans Salt Factory For Northern Alberta

EDMONTON. — Plans are under way for a \$500,000 salt factory about 100 miles northwest of Edmonton. Three firms associated with the project are Anglo-Canadian Oils, Home Oil Co. and the Calgary and Edmonton Corp.

The development resulted from discovery of salt beds of 1,000-foot thickness in the Elk Point district last year. The group has approximately 200,000 acres under a reservation permit.

WOULD BE POOR AD

The Fort William Times-Journal makes this comment: Figure skating experts, including Barbara Ann Scott, will practice for the Olympics during the summer at Schumacher in northern Ontario. We hope the impression does not get abroad that they are practising on natural ice.

N.Y. CHILD FOUND—Maxine Haren, four, gets piggy-back ride after she was found lying underneath a tree near Parksville, N.Y. The little girl was lost 20 hours and 150 searchers aided by bloodhounds sought her.

WOOL DELIVERIES SLOW

Owing to the exceptionally backward season over Eastern Canada and the Prairie Provinces, wool deliveries to warehouses have been slow, says the Current Review of Agricultural Conditions in Canada. Early deliveries are reported as being in good condition, showing improvement in preparation. Prices paid are in keeping with values of 1946.

RICH, SPICY CINNAMON BUNS

Recipe

Dissolve 1 tsp. sugar in $\frac{1}{2}$ c. lukewarm water; add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Scald $\frac{1}{2}$ c. milk, add 3 tbs. shortening, $\frac{1}{4}$ c. sugar, $\frac{1}{2}$ tsp. salt; cool to lukewarm. Add 1 c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg; beat well. Add $2\frac{1}{2}$ c. sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover; set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When light punch dough down; roll out into oblong piece, about $\frac{1}{4}$ " thick. Brush with 3 tbs. melted shortening or butter. Sprinkle with $\frac{1}{4}$ c. brown sugar, $1\frac{1}{2}$ tps. cinnamon, $\frac{1}{2}$ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place cut-side up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

WHEN YOU'RE LOW ON ENERGY

THERE'S NOTHING QUITE LIKE LIPTON'S TEA

ONLY LIPTON'S BRISK-TASTING TEA GIVES YOU THAT FLAVOR-LIFT

● You've never had a cup of tea like Lipton's—it's so delicious, so rich, so full-bodied, and, above all, so exhilarating! That's Lipton's FLAVOR-LIFT—and only Lipton's has it. For it's the blend that makes Lipton's—and Lipton's who make the blend. You'll notice this amazing FLAVOR-LIFT with your very first cup of Lipton's brisk-tasting tea. You'll say it's wonderful...wonderful anytime, morning, noon and night. Try it! Ask for Lipton's tea with the FLAVOR-LIFT, at your grocer's today!

REGULATIONS AND HEALTH LAWS, TOWN

We have been reading recently an article in the Albertan about Idaho's war on the housefly. The war started in 1944 when Dr. W. E. Shull heard about DDT. When DDT became more plentiful his experiments developed until today there are 75 commercial spraying units touring the state and eradicating the disease carrying housefly. Neighboring states and foreign countries are begging for information on Idaho's successful venture in fly control by DDT.

With the advent of the Sewer in Raymond the town council should start a long range program of health and fly control in Raymond. Most out building will not be necessary and unsightly trash heaps and garbage should be destroyed as breeding places for flies. Barns and pig pens should be sprayed with DDT and a sincere attempt to curb the fly menace be made.

In fact we feel a most strict sanitary law be passed and enforced within the boundaries of Raymond.

Regulations concerning the erection of barns and pig pens should be made. They should be a certain distance from any residence and should conform to certain standards. They should be sprayed with DDT and inspected regularly. Too much stress cannot be put on public health and the maintenance of strict regulations within the town of Raymond.

Those who sell milk commercially should be required to meet certain standards in their barns and milk houses. In fact we believe that there is a by-law in the town that takes care of milk and commercial distribution of it.

Especially in the business section should stringent health measures be adopted. A step in that direction was started when the restaurants were asked to stop raising chickens in the back yard.

Proper incinerators should be erected to dispose of all refuse and the trash heaps kept hauled away. We still think we should have a regular garbage pick up operating in the town and run by the town.

The backs of our business houses are in poor state and are an eye sore. Store owners are hard pressed to keep flies from produce displayed.

We cannot regard lightly the health menace of flies in summer and with the products now on the market for the control of the pest and good deal can be done with the cooperation of all needed.

World News In Pictures

FORT WILLIAM, ONT., GIRLS' PIPE BAND — Hailed as "the most beautiful pipers in the land" the Fort William, Ont., girls' pipe band was a big hit when they played at Hamilton, Ont. Laura Crowe, drummer, has a tough job in hot weather. The girls attended mass gathering of Scottish

pipe bands at Hamilton, Ont., and later moved off for a spot of sight-seeing at Niagara Falls, where scores of camera fans snapped Shirley Murphy, Mary Armstrong and Mae Reach.

TARGET FOR MYSTERY BULLETS—Mystery shots fired at car driven by Lawrence Paradie, 19, of Toronto are being investigated by police. Paradie and his wife, shown here, were driving through Kintore near London when he heard about eight shots as car passed him. Police check of residents of Kintore had established shots were fired. None hit Paradie car.

WINS DIAMOND SCULLS AT HENLEY — Shown above receiving congratulations, John B. Kelly, Jr., won the Diamond Sculls of the Royal Henley regatta, to climax a 26-year campaign of revenge that started when his father was denied the right to compete in the 1920 event because he once was a bricklayer. The 20-year-old University of Pennsylvania student defeated Carl Fronsdal of Norway by eight lengths in eight minutes and 49 seconds. Kent School, Connecticut, won the Thames Challenge Rowing cup when its eight-man crew defeated Tabor Academy of Marion, Mass., in the all-American final.

PRAIRIE FLOODS STALL TRAINS AT BRANDON, MAN. — Prairie floods turned back this train at Brandon, Man., after the Red river went on a rampage. Mrs. Hazel Detenbeck of Bertie township near Fort Erie, a passenger, was going to visit her parents at Swan Lake, Man. She returned to her home when the trains couldn't get through. She said miles of prairie land are flooded.

FLYING SAUCERS, OR SPOTS BEFORE EYES?—The theory of Prof. F. S. Cotton of Sydney, Australia, that the "flying saucers" which many citizens of Canada and the U.S. claim to have seen, are nothing more or less than a visual phenomenon, has many persons doing some personal experimenting. The idea is to stare at a fixed point in a clear blue sky, and according to the professor, the red corpuscles of the blood, passing in front of the retina of the eye, give the impression of flying kitchenware. So these two young ladies are trying out the theory.

WED AFTER LITTLE ROW—Film Actress Joan Blondell, (above), and Michael Todd, producer, were married at Las Vegas, Nev., on July 5, in a surprise ceremony that took place shortly after they became reconciled from a recent little spat.

WILL DO EVERYTHING LEGALLY TO KEEP COMMUNISTS OFF LAKE SHIPS — Seamen's union representatives will have to take affidavits stating they're not Communists before boarding his ships, states Capt. R. S. Misener, president of steamship line. Shown is freighter Oster with escort.

Great Lakes navigation, peaceful since last summer's strike, threatens to become stormy again with barring of some union representatives from ships. Shown is the steamship S.S. Noronic, being pelted by strikers during last year's tie-up.

CAPT. R. SCOTT MISENER—President of the Sarnia and Colonial Steamships, who says he will allow no Communists to board his ships.

FINDS LOST HUSBAND SENTENCED TO DEATH—For six years, Mrs. Muriel Preucil, seen here, of Sunderland, Eng., mourned her Czech husband, who disappeared soon after their marriage. Now she has learned that Augustus Preucil, her husband, has been convicted as a Gestapo agent and condemned to be shot as a traitor in Prague.

BOYS—EVEN CLERGYMEN—WILL BE BOYS—Sliding into a base in a camp ball game, Rev. E. H. McLellan, of Oshawa, is tagged by Rev. W. A. Filer, Peterboro. Their ball game is being played on a 25-acre property at Big Bay Point, Lake Simcoe, where Anglican clergy have set up a summer camp and provided holidays at about five dollars a week for a family.

ENDS MAN'S MONOPOLY—Bachelor Lake, about 100 miles north of Rouyn in the Chibougamau area of Quebec where the search is on for gold, may have to change its name. It's not for bachelors only any more. Mildred (Kit) Jourdin, former war-time Wren and strictly feminine at 97 pounds, invaded Bachelor Lake when she flew in with her fiancé, Deke Orr, veteran bush pilot, and caught a 10-pound pike while Orr unloaded prospector's supplies. Believed the first white woman to enter the Bachelor Lake area, Miss Jourdin lives in Rouyn with her father, one of the pioneers of the Rouyn north country.

AT TEACHERS' SUMMER MUSIC SCHOOL — Saxophone and drum are the instruments chosen by Sister M. Stanislaus, (left), of Kitchener, and Sister M. Patricia of Galt for their summer music course. Over 90 teachers from all over Ontario are attending the course in Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

During the war, U-boats sank 14,573,000 tons of Allied merchant shipping, it has been revealed in official figures.

At Swinton, Lancashire, coins, minted about 700 years ago were discovered in a sandpit by 14-year-old George Willets.

Reconstruction Minister Howe said in Commons the time would come when Alberta's tar sands would be "very valuable" as a source of oil.

Norman Hartnell, dressmaker to the Queen, lost £2,000 (\$8,000) worth of jewels when his home was burgled for the third time.

A total of \$28,142,625 has been spent by the Canadian Government on four destroyers ordered from Harland Shipyard Limited.

Britain's railway workers will receive wage increases and shorter hours under recommendations made by a court of inquiry set up by the labor ministry.

More than 750 timber workers from among displaced persons in the British and American occupation zones are coming to Canada to work in lumber camps.

Surgeon J. H. Bentley of Newcastle-on-Tyne, triumphed in a nine-year-old case when Brian Froggatt, born with a cleft palate and little hopes of speech, clearly recited a nursery rhyme.

LONDON. — Generalissimo Stalin has personally drawn up a plan to rebuild Moscow as a "harmonious architectural creation expressing the noble ideas of Communism," Moscow radio said.

Pet Puppy Chews Race Winnings

FORT ERIE, Ont.—You could never convince Percy Detenbeck that a dog is man's best friend.

On money borrowed from his wife at the races, he wagered on a horse that romped home at long odds.

His wife ended the bankroll in her nylon stockings, and the couple went home—tired but happy—and to bed.

Came the dawn—and discovery that the family pet puppy in the night had chewed up the cash.

AUSTRALIAN HOLDS RACE FOR LOVEBIRDS

Sixty-seven-year-old John Lucas of Sydney, Australia, has a flock of lovebirds for which he arranges a race-meeting every Saturday afternoon, says the Australian Weekly News. The track is measured in lengths of the kitchen table. The jockeys, the bookmaker and the starter are his prize-winning lovebirds. Mr. Lucas began training lovebirds to talk twenty-five years ago. When deafness prevented him from hearing them, he started to teach them tricks.

To Feel Right — Eat Right

Canada's "Raving Beauty"

IRIS BOYD OF BRANDON, MANITOBA

MONTREAL. — Iris Boyd, a 19-year-old Prairie Flower from Brandon, Man., has been judged Canada's "Raving Beauty" in a national photographic beauty contest which attracted hundreds of entries from all provinces.

The pretty cosmetician, receives as the grand prize a trip to Montreal and New York. In Montreal she will be presented with an all-Canadian wardrobe with which to make her Manhattan trip. She will be interviewed over a national network broadcast in New York, receive a movie audition and go on an extensive round of entertainments as the guest of Miss Peggy Sage, sponsor of the contest, visiting top night spots and seeing two current Broadway hits.

The daughter of Mr. and Mrs. James Boyd, Brandon's lovely Iris possesses a "perfect" figure. She has a 34-inch bust, 24 waist and 34 hips.

Toads Are Great Help To Garden

The Brandon Sun says if a toad decides to make his home in your garden, by all means be hospitable to him—which means, mainly, just don't molest him, or let anyone else do so. He may look like a mere animated clod, but his sticky tongue is forked lightning to insects. He does all his work at ground level, looking up at the underside of leaves where insects lurk that even the sharpest-eyed of birds fail to see. He is one of the most valuable of our allies in the endless insect war.

The only dust-free air in the world is over the ocean at a distance of more than 600 miles from shore. 2734

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

Foods Won't Fight

Nutritionists at Ottawa, in the National Health services, pooh-pooh the belief that certain foods, taken together, will "fight" in the stomach. They say that there is no reason why a meal shouldn't include both lobster and ice-cream, for example.

Healthful foods don't create mysterious poisons, simply because they are mixed. People with robust digestions may eat most foods quite happily. However, any two foods hard to digest will naturally cause just that much extra distress if eaten together in large quantities. The secret, say the experts, is to eat in moderation as well as to choose foods for nutritive value.

Watch Your Weight

The tendency of people past the age of 40 years to put on weight may or may not be a sign of continued good health, but health authorities warn that only a physician can be sure on that point, so care should be taken in any program for reducing weight. For instance, it is not always safe to indulge in strenuous exercise, all of a sudden, to take off the extra pounds. If the excess weight has been due, as it may be, to some organic disease, such exercise may only make this disease worse. In this, as in all health matters, National Health authorities advise—"See the family doctor".

Drinking Water

People doing average work in summer, drink about a gallon of water a day, and those doing strenuous physical work under the hottest conditions may drink up to two gallons. Perspiration robs the body of salt, as well as water, and medical authorities suggest that, in hot weather and when working in the heat, compensation may be found for this loss by eating plenty of salty foods, as well as drinking a little water at frequent intervals.

Respect The Sun

Reminder that too much sun can be harmful, is issued by National Health headquarters. Excessive exposure to sunlight can cause sunstroke, Canadians are reminded. Sunstroke, indicated by high fever, demands that the sufferer be kept cool. There is also a condition called "Heat Exhaustion", symptoms of

Seventy-Three Million Coins Minted In 1946

OTTAWA. — The Royal Canadian Mint received 3,576 deposits of gold bullion from Canadian mining and other concerns during 1946, containing 2,652,245 ounces of fine gold and 372,595 ounces of fine silver, according to the annual report of the mint tabled in Commons by the Finance Minister, Hon. Douglas Abbott.

The net amount paid for this was \$94,662,727.

A total of 73,168,921 coins of all denominations was issued last year, a decrease from the 114,435,791, issued in 1945.

There has been no successful invasion of Britain since 1066; no civil war since 1660.

which are paleness, coldness and clamminess, and which calls for care in keeping the patient warm. In both cases, a doctor should be called.

SCOTCH GIRL WILL HAVE TOUGH TRIP

A slender dark-haired Scottish girl, in sweater and slacks, is off on the trail of Drake, Morgan and Kidd! She's Betty Swapp, the only girl member of the crew of the "Lonely Lady"... a 40-foot schooner which is to make a two-year voyage round the world. The "Lady's" skipper is George Osbourne, who caused such a sensation by his trip in the "Girl Pat" a few years before the war. Betty is 24, a poetess, and the daughter of a seafaring family. Skipper Osbourne chose her as the sixth member of his crew out of more than 1,000 applicants. It's going to be a tough trip in the tiny schooner... ranging from the Spanish Main to Cape Horn, and the Caribbean to the South Sea Islands, but the skipper knows that she won't let him down. The members of his crew must have courage, he says, and young Betty is as tough as they come!

NOON CLOSING

Comment in some quarters was aroused last week when we ran the "Noon Closing Outdated"—some good and some bad.

Now that we have presented the feelings of the buying public we should perhaps view the situation from behind the store counter.

Most of the store operators feel that much better service is maintained with noon closing. A full staff and an experienced staff is on duty right after dinner when the store is reopened. This does away with a half staff from 12 noon to 2:30 while the staff has dinner should the stores stay open at noon.

Then too the workers feel better because they have a chance to get home to eat at regular hours every day.

The days when a store opened at seven in the morning and stayed open until ten or eleven at night are finished, or should be finished in this present day world of cars and telephones. Men are working short weeks of 44 hours a week, and the clerk in a store is no different. Longer working hours would mean more pay which would mean more and higher operating costs which would naturally be reflected in the cost of goods to the consumer. Staying open at noon would not mean longer hours to the clerk, he would still get his hours off for dinner, but now that people have adjusted themselves to the regulation, in our estimation it could continue. Perhaps a method could be worked out where one of the stores would stay open at noon for a month at a time during the rush seasons of spring and fall.

Take a look at what happens in the winter. A good many of the school children bring their lunches to school with them and spend their noon hours in the stores looking around. A depleted staff is hard pressed to cope with a situation like that and still give service.

Business places in Raymond feel they are giving good service. Goods are becoming a little more plentiful and hard pressed staffs are once again being brought up to strength. There are a lot of points both for and against noon closing. What do you think?

PLAN TO ORGANIZE NEW SCHOOL PATROLS

An increased number of school safety patrols will be organized at the opening of the fall term in September, according to officials of the Alberta Motor Association.

Several inquiries have been received from towns interested in the formation of these patrols at the schools.

Both Ponoka and Camrose had school patrols represented at the re-

cent banquet which the Edmonton branch of the A.M.A. gave 300 boys and girl patrols. Other towns are known to have organized patrols or are planning to do so.

Wearing a sash provided by the motor association the patrol sees that children are enabled to make a safe crossing of intersections near the school when going to or from school. The pupils are encouraged to be on the watch for motor cars and to cross when it is safe to do so, escorted by the patrol.

Motorists have also shown that they will give full co-operation to these school patrols in carrying out their duties.

NEW SHAMPOO HAS LINK WITH PENICILLIN

A new hair shampoo which owes its existence to Britain's discovery of penicillin is now being shown at the Olympia section of the British Industries Fair. In the early days of penicillin production, United Kingdom research workers carried out numerous experiments to increase the yield of the "wonder drug". The use of Cystine, a material extracted from human hair was found to give particularly successful results and arrangements were made with hair-dressers for regular supplies of hair. Every known method of cleaning this hair was tried but none came up to the unprecedentedly high standard laid down. Finally scientific workers evolved their own shampoo. It is this shampoo, with a delicate perfume as the only addition, which can be seen at Olympia.

Workers exposed to danger of flying particles and other hazards are urged by the department of National Health and Welfare to wear safety goggles. The Department quotes statistics to show that 80 per cent of eye accidents in factories were due to flying particles. Figures also show that 98 percent of all industrial eye accidents were preventable.

By DR. E. J. GREANEY, Director, Line Elevators Farm Service, Winnipeg, Manitoba.

Preventing Farm Accidents (An Exhibit)

We are pleased to announce that The North-West Line Elevators Association will be represented at most of the larger fairs in Western Canada this summer by an outstanding agricultural exhibit. The main theme of this year's exhibit is one of vital importance to every prairie farmer—"Accident Prevention on the Farm."

The main part of the exhibit portrays, by means of an attractive and instructive mechanically-operated scale model, the main causes of farm accidents. It includes a diagram of a farm house in cross-section, illustrating the more common Fire and Accident hazards in the home. This display will be of interest to every member of the family. Its chief aim is to help prevent farm accidents in Western Canada, and we have adopted as our motto, "Safety is Everybody's Business."

Although the central part of the exhibit deals with safety on the farm, the wing panels are used to show the important uses of those new and very promising agricultural chemicals "DDT" and "2, 4-D." New and authoritative publications dealing with these new chemicals will be available at the exhibit booth.

A member of the technical staff of Line Elevators Farm Service will accompany the exhibit. He will be prepared to provide information on crop production problems and agricultural subjects of interest to prairie farmers, and on the work of this Department. In other words, he will be "At Your Service."

Don't fail to visit the Association's exhibit at one of the following points: Moose Jaw, June 30-July 3; Lethbridge, July 4-5; Calgary, July 7-12; Yorkton, July 14-15; Regina, July 17-19; Lloydminster, July 21-23; Vermilion, July 24-26; Vegreville, July 28-30; Red Deer, July 31-Aug. 2; North Battleford, Aug. 4-6; Prince Albert, Aug. 7-9.

40 ALBERTANS KILLED IN MOTOR ACCIDENTS

Alberta had 40 fatalities in motor accidents in 1916 which was less than

RAYMOND BAKE SHOP

OUR COMPLETE SHORT STORY—

INVITATION TO—

By YALE ROE

I HAD made a date with my former college room-mate, Ted Lawson, for seven o'clock; a date for dinner, and for death. After meeting we went to a Chinese chop suey house, a dirty, smelly place. The cigarette smoke stretching toward the ceiling created a synthetic fog. In a corner a juke-box was bawling out a nerve-racking boogie.

As Ted lit a cigarette I first noticed how gray his hair had become. But it was twenty years since our graduation day when I had last seen him. The passing of time had changed us both but did not dull my memory of that day.

After the graduation exercises I had started looking for Ted. I had known him for a year but lately he seemed to be acting strangely. He was uneasy when with me and it was not long before I knew why.

Suddenly I caught a glimpse of his curly black hair in the crowd. Making my way towards Ted I saw Susan, my fiancée, with him. Susan and I were going to be married as soon as I found a job.

"Congratulations, Ted!" I clasped his hand.

"Thanks," he said quietly. "Same to you."

As I put my arm around Susan and leaned over to kiss her, she averted her head and stepped back. It was then that I sensed that something was wrong. Stunned, I heard her tell me that she was in love with Ted, that she had been seeing him secretly for weeks. From a conglomeration of bemuddled thoughts I could realize only one thing; that it was all over. I turned and walked away enraged, hurt, confused. In a daze I wandered down a side street and sat at a table of a sidewalk cafe; I ordered a drink and sat for hours, without touching it.

Ted married Susan the following week. They moved to Rhode Island where they lived for only a year before Susan became ill. Within a few days she died; the doctors said it was pneumonia. Perhaps it was poetic justice. Perhaps neither of us was worthy of her.

Ted had been a business executive but he lost all his money during the depression. After that he shifted around doing various jobs and having finally come to Chicago, he telephoned me. Now, twenty years later, we would meet for dinner and talk over old times.

Being one who was always concerned with himself only, Ted thought that I would soon disregard his marriage to Susan and marry someone else. I never did marry nor did I forget. Rather, the passing years branded my wound deeper and deeper until I was obsessed with a fearful desire for revenge.

I had never thought of myself as one who would someday commit murder. But with every passing day, month, and year my hatred towards Ted Lawson grew until my wrath developed into a frenzy. But my revenge would not be complete if I too would have to die. Consequently, I had long thought out my perfect crime. Over a period of twenty years an act such as murder could be planned most carefully.

Actually it was very simple. About five years ago, while out of Illinois, I had bought a medicine which was poison if taken internally. The effects had all the symptoms of a seizure. I had bided my time for many years so it was nothing to wait another few years until the moment of opportunity would arrive. That moment had finally come. Ironically, I thought, for in reality he was inviting me to kill him. Putting the poison into his drink would be easy enough, and it would take effect within three hours. The doctors would simply say, "Theodore Lawson. Age 41. Died of heart-failure."

The bus boy cleared our dinner dishes from the table. As the waiter approached with our coffee I realized that the time for my revenge was finally upon me. My insides felt strangely empty; my cheek muscles voluntarily flexed but I knew that I would not change my mind. I had waited too long to back out now. With keen alertness I watched for a chance to pour the few drops of poison into Ted's coffee.

Then I noticed a blond woman of about thirty shuffle past our table swinging her hips in time to the music. Ted looked up and smiled. His eyes followed her across the room. This was my chance but I had to act quickly. With the agility of a cat I shot my arm towards Ted's cup and the deed was done. The drops of poison floated around in the cream and then sunk to the bottom of the cup. Ted turned back and for a moment I thought he had seen me. Then he took the cup in his hand to drink the coffee. My nerves, already tense from waiting to commit this crime, seemed shattered and I jumped to my feet. Still holding the cup in his hand, Ted asked, "What's the matter?"

"Nothing," I answered. "I'm just going over to the counter to get some cigarettes." "Well is that all?" he said. "Here, take one of mine." He set down the cup and took out a pack of cigarettes.

"Oh, that's all right," I told him. "I'd rather get my own brand."

I walked to the counter quickly. I couldn't bear to watch him drink the coffee. I wanted to run out but that would give me away. I had to go back. Returning to the table I no-

Princess Elizabeth

whose engagement to her childhood sweetheart, handsome Lieut. Philip Mountbatten, formerly Prince Phillip of Greece and Denmark, was formally announced by the King. A Princess who was born in an ordinary house, and who will one day become a Queen, is to be a royal bride, whose earliest home was at 21 Britan street, London, and who as a baby was known all over the world as the "Wee" Princess. She is to have a state wedding in Westminster Abbey, London.

ted that half of Ted's coffee was gone. I felt a wave of relief sweep over me. At last it was done. Now I must finish dinner and leave before the poison would take effect.

After we had finished our desserts and coffee we sat for a while smoking and talking. Suddenly Ted burst out laughing. His whole burly frame shook with laughter until I could not stand it any longer. "What is it, What is it?" I found myself shouting.

He said, "You know, I'm a heel. Why it's really funny. When you went to buy your cigarettes, I got suspicious of you. I guess it was because I was always afraid you would do something to me for marrying Susan." He laughed some more.

"Suspicious. What do you mean?" I asked.

"I don't honestly know," he answered. "But suddenly I began to wonder if after all these years you would hate me and if you would try to harm me. So I switched our coffees. You know, like they do in the movies. But heck, you couldn't hurt a fly. That's funny, isn't it?" The volume of his laugh seemed to swell in my ears. I rose slowly from my chair and walked toward the door. Somewhere in the back of my mind I heard Ted calling me but it did not matter. I knew that now nothing would ever matter.

SELECTED RECIPES

BARBECUED MEAT BALLS
Barbecue frankfurters the same easy way. Takes only a jiffy. Mix together 1½ pounds ground beef, ½ cup milk, 2 teaspoons salt, and ¼ teaspoon pepper. Shape into balls and fry in small amount of fat until browned.

Combine 1 cup catsup, with ¼ cup Worcestershire sauce, 3 tablespoons chopped onion, 1 teaspoon sugar, 2 tablespoons vinegar, and 1 tablespoon water. Pour over meat in skillet, cover, and cook slowly 10 minutes, turning meat occasionally. Makes 16 meat balls.

For barbecued frankfurters, split open 8 large frankfurters, brown in small amount of fat in skillet, and proceed as directed.

CHOCOLATE LAYER OR LOAF CAKE
(Standard 1-egg cake)
2 cups sifted cake flour
2 teaspoons baking powder
¼ teaspoon salt
¾ cup butter or other shortening
1 cup sugar
1 egg, unbeaten
¾ cup milk
1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter, add sugar gradually, and cream together until light and fluffy. Add egg and beat very thoroughly. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (375 deg. F.) 20 to 25 minutes. Or bake in greased pan, 8x8x2 inches, in moderate oven (350 deg. F.) 45 to 50 minutes. Spread with Mellow Chocolate Frosting and nuts, if desired.

Alexandria, Egypt, was founded in 331 B.C. 2734

PLENTY OF DUCKS ASSURED HUNTERS ON THE PRAIRIES

NEW YORK. — Large wild duck crops in many areas of Western Canada nesting range have been assured by constant water levels throughout the Southern Prairies and other conditions also continue to favor 1947's waterfowl season, Ducks Unlimited reported.

Albert N. Day, director of the United States fish and wildlife service, mailed recommended dates for duck hunting to the state game commissions. They were not made public but Day had previously indicated he would suggest that the season and the bag limits in the United States be reduced from those of a year ago.

Last year shooting was permitted 45 days with bag limit cut to seven from ten allowed in 1945. The hunting season that year was 80 days. Day estimated that the 1947 duck population would be 26,000,000 below the 80,000,000 in 1946.

Brave Youth Saves 9-Year-Old Boy From Drowning

DUNCAN, B.C. — Sixteen-year-old Eddie Schmid leaped fully clothed into a six-knot Cowichan river current recently to pull a 9-year-old boy from the treacherous waters.

Saved was Peter Hastings, who got into difficulty while bathing with several young companions.

Schmid was loading a gravel truck some distance away when he heard cries of the drowning boy's friends.

Without waiting to pull off clothing or heavy boots, he dashed into the river.

He had a stiff battle to bring the younger boy to shore.

Duncan citizens feel Schmid should receive Royal Humane Society recognition for the rescue.

INCREASE EXPECTED IN ONTARIO'S APPLE CROP

TORONTO. — Ontario will harvest 1,000,000 barrels of apples this year — a 30 per cent. increase over 1946 production — but yields in pears, plums, peaches and cherries will be greatly decreased, the Ontario Agricultural Department announced in its preliminary crop estimates.

The long, cool, wet spring retarded blossoming and during the extended bloom period of tender fruits, bees were inactive, pollination and set were generally poor, causing crop setbacks, the report stated.

WHAT TO DO

When an elevator is crowded, a man should step out quickly, in his turn. This is more considerate and less awkward than to block those behind him to let a lady go first.

Leduc, Alberta, "Boom" Town

LEDUC, Alta. — Oil has turned this little Alberta village into a "boom" town but it has changed the lives of the district farmers even more radically.

Farmers who formerly looked out of their kitchen windows and saw acres of golden wheat ripening in the sun, now gaze at derricks and separators. Children who used to return from school to farm chores now dash off to watch the digging and boring. The rich black-gold thousands of feet underneath the ground has suddenly become more important than the crops above it.

Wealth hasn't come to all who have oil on their land. In many cases, the mineral rights of their farms belong to the Alberta government and 12½ per cent. royalty is paid to the province. These farmers receive nothing but the \$50 an acre the oil companies pay for the use of their property.

Others have acquired a fortune virtually overnight. They own their farm's mineral rights and one-eighth of every dollar made by the oil company is returned to them. One farmer, who came to Canada from Poland little more than a decade ago, now has 150 barrels of oil produced on his land daily. He still lives in his two-room shack with his wife and three children.

Property has been sold for as much as \$100,000. New cars have appeared to travel along the dusty gravel roads and narrow country trails. One family bought a home in Edmonton and others are planning trips.

There are many who intend to remain and continue growing wheat on their fertile land. Money in the bank may modernize their farms and provide an education for their children, but they still like working on the soil.

They are predominantly Polish and Ukrainian, but there are several French and Swedish families in the neighborhood.

Religion plays an important part in their lives—small churches dot the district and the spires can be seen for miles across the prairie.

Roosters still crow loudly each morning—but they know it's a losing battle. It's the hissing of oil as it goes through the flowline to the separator that really counts.

NEW ENAMEL

New auto enamel is applied in unusual way. Put on with powder puff, it dries in an hour; will not streak; doesn't crack, fade, chip, or peel for at least two years, according to St. Louis maker.

Slanted To Flatter

Here's that wonderful new sideline! Most effective, the way Pattern 4571 crosses and buttons. Most intriguing the way it uses scallops to flatter. Opens flat for ironing.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4571 in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3¾ yds. 35-in.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

Miner Loses Temper, Then Finds Gold

NEW YORK. — Gold miner Sam Hallit whacked his head hard, on a spur of rock in the old mine shaft at Kaigoorlie, western Australia the other day. Sam lost his temper, took a swing of his shovel at the offending piece of rock.

The blow, the Australian News and Information Bureau reports, uncovered a rich vein of gold ore.

THE RIGHT ANSWER

June, reports the weatherman in his formal autopsy on that month, was 2.2 degrees colder and 21 per cent. cloudier than normal.

What, inquired the poet, is so rare as a day in June?

Rare, says Webster, is almost raw. Our answer to the poetic query: A day in March.

A WHALE OF A CHANDELIER

In the restaurant of the "Enterprise Scotland, 1947" Exhibition, which will be held at the Royal Scottish Museum in Edinburgh this August, visitors will see a novel chandelier. The skeleton of a whale hangs from the ceiling of the big hall which is being turned into a restaurant, and the task of dismantling it would have been considerable. The architects have therefore decided to make use of the whale and wire it for lighting.
